

Question1.

```
class Pclass
{
    public void pmethod()
    {
        System.out.println("This is parent class");
    }
}

class Cclass extends Pclass{public void cmethod()
{
    System.out.println("This is child class");
}
}

class Ans{public static void main(String[] args)
{
    Pclass m = new Pclass();Cclass n = new Cclass(); m.pmethod(); n.cmethod(); n.pmethod();
}
}
```
